

In IJP, all manuscripts must be prepared in English, and are subject to a rigorous and fair peer-review process. Accepted papers will print in hard copy quarterly. The journal publishes original papers including but not limited to the following fields:

1. Theoretical and nuclear physics.
2. Elementary particles and high energy physics.

3. Atomic and molecular physics.

4. Plasma physics.

5. Solid state physics.

6. Nano physics.

7. Laser and optics.

8. Medical and biophysics.

9. Astrophysics.

10. Renewable energy.

11. Superconductor.

12. Remote sensing.

The specific codes from the Physics and Astronomy Classification Scheme (PACS) are included, generally. More about PACS can be found on the website of the American Institute of Physics (AIP): <http://www.aip.org/pacs>

Please make sure that your paper is categorized within one of these fields before submitting it.

Some related fields of Chemistry, Astronomy and Geology science may fall within these categories, as well as specific engineering papers. For further help you can use contact links from the [Contact page](#).
